

# SDCAPDIS

## CAPACITOR DISCHARGE PEN

- For discharging capacitors safely without the risk of electrical shock.
- LED indicator to let you know if capacitor is charged.
- Standard magnetic connector or alligator clip adaptor.
- 14" wire lead for ease of use.

### Directions

1. MAKE SURE POWER IS DISCONNECTED FROM APPLIANCE
2. Remove wire connections from capacitor.
3. Connect the wire lead to the common terminal of the capacitor.
4. Touch the brass tip of the Capacitor Discharge Pen to any nearby ground, frame, or chassis.
5. Repeat steps 3 and 4 on fan and hermetic terminals.
6. Do not leave Capacitor Discharge Pen connected to capacitor when turning appliance back on.
